

EDUCATION FOUNDATION of
THE WASHINGTON ROUNDTABLE

BUILDING AWARENESS, UNDERSTANDING AND SUPPORT FOR IMPROVING PUBLIC EDUCATION

WHO WE ARE

Partnership for Learning, the education foundation of the Washington Roundtable, is a statewide nonprofit organization that communicates the need for all Washington students to graduate from high school better prepared for college, work and life. As a trusted source of information, Partnership for Learning makes complex education issues accessible.

OUR MISSION

To build awareness, understanding and support for improving Washington state's K-12 public education.

OUR VISION

Washington state leads the nation with a public education system that prepares all students to succeed in college and career, and fosters our state's economic competitiveness.

HOW WE WORK

We help to build demand for an education system in which all students receive a high-quality education that prepares them for life after high school. We focus our work on three areas:

COMMUNICATOR

We produce and broadly disseminate quality, evidence-based resources, publications, e-newsletters and digital content (Web and social media) that supports our mission, views and policy objectives.

PARTNER

We form and facilitate coalitions, networks and relationships to complement and enhance our position as a statewide education reform leader, a go-to resource, and representative of business and economic development organizations.

AUTHORITY

We serve as an expert resource and voice for the education priorities of Washington's business community and provide timely information about and reactions to key policy decisions and reform efforts.
